How Doth the Little Busy Bee
By Isaac Watts

(Intro: G A7 D A7 D)

D                G                           A7             D
How doth the little busy bee

G                                        A7            D
Improve each shining hour

G                      A7                   D
And gather honey all the day

G                   A7                     D
From every opening flower

D                                          G A7
How skillfully she builds her cell

D                                             A7
How neat she spreads the wax

G                     A7                      D
And labors hard to store it well

G                               A7                         D
With the sweet food that she makes.
